

Are you keen to be part of the legal team in one of the fastest-growing regions in a company that grows with its values of Imagination, Creativity, Fun, Learning, Caring and Quality?

We are hiring for a Legal Intern from August 2026 to August 2027 with a minimum commitment of 3 months. Please indicate your available dates in your CV and submit together with unofficial transcripts.

Core Responsibilities

In close collaboration with Head of Legal Tech, Operations and Transformation and members of the team support the Legal Technology, Operations & Transformation agenda and roadmap, which includes to:

- Support the **legal department's** (LCR's) strategic priorities
- Support efficiency, innovation and digitalization initiatives in LCR including support with implementation of legal tech solutions and other legal operations best practices, in collaboration with relevant stakeholders
- Collaborate, recommend, and engage with legal technology tools available, to provide support to efficiently manage your projects.
- Demonstrate knowledge and skills of working with the Best Project Delivery approach (i.e. Stakeholder, Change and Communication management)

Play your part in our team succeeding

LCR Legal Tech, Operations and Transformation is a newly established local/global team located in Billund, Singapore and Mexico, consisting of a variety of legal positions.

The main focus of the team is to:

- Drive efficiency, innovation & digitalization in our processes and tools
- Drive projects and tasks that support the legal department and the LEGO Group's strategic priorities.

- Provide operational, tactical and strategic legal tech, operation and transformation support
- Continuous collaboration with colleagues and stakeholders to support time and cost efficiency

Do you have what it takes?

- 6 months to 1 year of legal-related experience required
- Ability to work independently and highly organized
- Strong research and communication capabilities
- An energetic, proactive, can-do attitude
- A global mindset and perspective
- Able to thrive in 'Best of Both' work environment (i.e. minimum 3 days per week in the office)
- Ability to collaborate with colleagues at various levels and across global offices demonstrating teamwork
- Willingness to share ideas on identifying opportunities for improvement in terms of project delivery approach
- Interest and capabilities in technology/ data analytics, or the use of legal technology would have an added advantage
